

# Face Factor™

## HOW TO ENJOY YOUR FACE FACTOR™ PDF GAME CARDS:

1. There are game cards backs followed by the cards in this pdf document.
2. Print at home on card stock choosing 2-sided printing matching back cards to the front. Cut individual cards for play.
3. You can also have a local shop print them on heavy white cardstock in color choosing 2-sided printing.
4. Game Play Instructions are included below.
5. If you have a d4 die, that's the best way to play! If not, you can use the FREE CHOICE option for each play.
6. Hope you and your faces have fun!

**THE WIN:** Player with the highest score after 3 completed rounds wins Face Factor™.

## GAME PLAY:

- The person with the most hair on their head and face combined chooses who goes first.
- Play continues counterclockwise to complete a round.
- First player sets the Face Factor™ box top horizontally with the inside of the box facing them.
- Then, they pick a card from the deck and without any expression, reads the 3 scenarios aloud.
- Roll the die inside the box top without others seeing the die. The number on *bottom* of the die corresponds to the Face Factor™ scenario on the card.
- Rolling a '1' means acting out scenario '1' on the card, likewise, rolling a '2' or a '3' means acting scenarios 2 or 3 respectively.
- Rolling a '4' is a *FREE CHOICE* allowing the player to choose the scenario to act out.
- The player should have the attention of the group before acting out the scenario.
- Unless otherwise specified on the card, he/she must *only use their face*, to act out the scenario. No sounds, forming silent words, hand gestures or body movements allowed; *unless the card says otherwise*. Players choose either the *Regular Play* or *Speed Play*.
- *Regular Play Option:* After everyone has seen the player's expression, the player asks the person to their left which scenario was acted out. Players continue to guess aloud in turn.
- *Speed Play Option:* After everyone has seen the player's expression, players guess simultaneously by putting up their guess using their fingers. At the count of 3 called aloud by the player acting, everyone guesses at 'same time'. Putting up '1 finger' for scenario 1, '2 fingers' for scenario 2 and '3 fingers' for scenario 3.
- In either play option, once a player guesses, they *cannot change* their guess. The player acting then reveals the correct scenario to the group. Choose 1 person to keep score for all players.
- Each correct guess is worth 2 points to the player guessing. The player acting receives 1 point for each person who guessed their scenario correctly.
- If an actor makes a sound or uses anything other than their face, head or ears to act out the Face Factor™ scenario, he/she has 1 point deducted from their score.
- Once 3 rounds have been completed, the player with the highest score wins!

## FAQS:

**Can I make a laughing/crying/whining/screaming/sighing/moaning/any sound to act out my scenario?** No, unless the card specifies otherwise.

**Can I form silent words with my mouth?** Nope.

**Can we reuse the cards for another game play?** Yes. You can reshuffle and reuse the cards after the entire deck has been played. This is because the die only chooses 1 scenario at a time so in future games, other scenarios may be chosen from the same cards.

**What if the player acting receives the same card and the same scenario?** If this happens, the player can either pick another scenario from the card to act out OR choose a new card from the deck.

**What is a CREATE YOUR OWN card?** Here, the player can create 3 scenarios and write them on the card to use that turn. This card gets put back into the deck for reuse in future games.
